

# ANACONDA CON '17

## Feature Highlights

AnacondaCON is the only event created specifically for the #AnacondaCREW. Whether you're a new or longstanding member, focused on business or technology, AnacondaCON will help you conquer your biggest data science challenges.

### **BUSINESS TRACK**

From discovering cures for rare genetic diseases to city planning and tax policy analyses, leading data scientists are using Anaconda for advanced machine learning and creating interactive dashboards and apps with rich visualizations. Hear from leaders that are defining what #OpenDataScienceMeans for business.

### **NETWORKING EVENTS**

#### **Opening Reception**

Enjoy cocktails, hors d'oeuvres and networking with Open Data Science luminaries

#### **AnacondaCON Carne Party**

Celebrate at our off-site party at Fair Market Austin featuring authentic Texas BBQ, local music, and more.

#### **Networking Breakfasts**

Start your day with a delicious breakfast and conversation with Open Data Science Experts

#### **Birds of a Feather Lunches**

Take a break for lunch and enjoy discussions with industry leaders.

### **TECHNOLOGY TRACK**

Open Data Science is advancing at exponential speeds. How does machine learning address business problems? What's the role of Open Data Science in the new data-driven culture? What does Artificial Intelligence mean in 2017? Expert speakers will answer these questions and more, exploring what #OpenDataScienceMeans in technology.

### **DEVELOPERS AMA**

Added by popular demand, our AMA (Ask Me Anything) Sessions will be hosted by some of our top developers.

#### **Anaconda AMA**

Peter Wang, Anaconda Distribution  
Kale Franz, conda

#### **Interactive Visualization at Scale: Bokeh and Datashader AMA**

Bryan Van de Ven, Bokeh Project Lead  
Jim Bednar, Datashader Project Lead

#### **High Performance Distributed Computing: Dask and Numba AMA**

Matt Rocklin, Dask Project Lead  
Stan Seibert, Numba Project Lead

# Benefits of Attending

Join us at the first AnacondaCON to engage with foundational contributors and thought leaders in Python and Open Data Science.

## ACCELERATE

Accelerate your team's time-to-value by learning from experts in Anaconda, the leading Open Data Science platform.

- 4+ hours of keynotes by industry expert leaders including speakers from Forrester Research, UC Berkeley, Fast Forward Labs and Continuum Analytics
- Exclusive and detailed discussion on the Anaconda Roadmap, including Anaconda demos, the latest innovations and technology trends

## CONNECT

If you're looking to connect with the brightest minds in the Open Data Science ecosystem, look no further.

- 11+ hours of networking at Birds of a Feather breakouts, Ask Me Anything Sessions and daily meals, all included
- 20+ speakers, including enterprise leaders and industry experts sharing what #OpenDataScienceMeans and their best practices, from companies like Bloomberg, General Electric, Capital One and DataCamp

## EMPOWER

Learn how your entire team—Data Scientists, Business Analysts, Developers, DevOps, Data Engineers, anyone—can share, engage and collaborate from the prototype all the way through production deployment.

- 5+ hours of general sessions with tracks for both Business and Technology
- Deep dive sessions on Anaconda Fusion and self service data science to empower your entire team
